# Polyurethane Kitchen

## Polyurethane Kitchen

The main advantage of polyurethane doors is that they can provide endless choices in colour and come in a range of finish options such as satin, matt and high gloss finish. Polyurethane doors are easy to clean and will last a long time if care is taken.

### Finger pull handle ►

For a minimalist modern look, you can opt for a “handleless” kitchen. Instead of handles or knobs on the doors, the kitchen doors have recessed grooves for you to grip. This design also makes cleaning the doors very easy. ▼

## Solid Timber Doors

Solid timber doors create a warm and cosy feeling in a kitchen and can suit both modern or country kitchen designs.

## Timber Veneer

Timber veneer is a thin layer of real wood stuck to a particleboard or medium density board to create a very smooth flat timber surface.

Granite is a very hard material and is less porous than marble, making it suitable for kitchen bench tops. Being a natural material, granite patterns and colours can vary from slab to slab.

## Vacuum Formed Kitchen

Vinyl wrapped/vacuum formed doors are vacuum bonded foil on a MDF substrate. This provides a seamless surface that is easy to clean and hygienic. They are also moisture and stain resistant, and come in a variety of finishes and patterns.

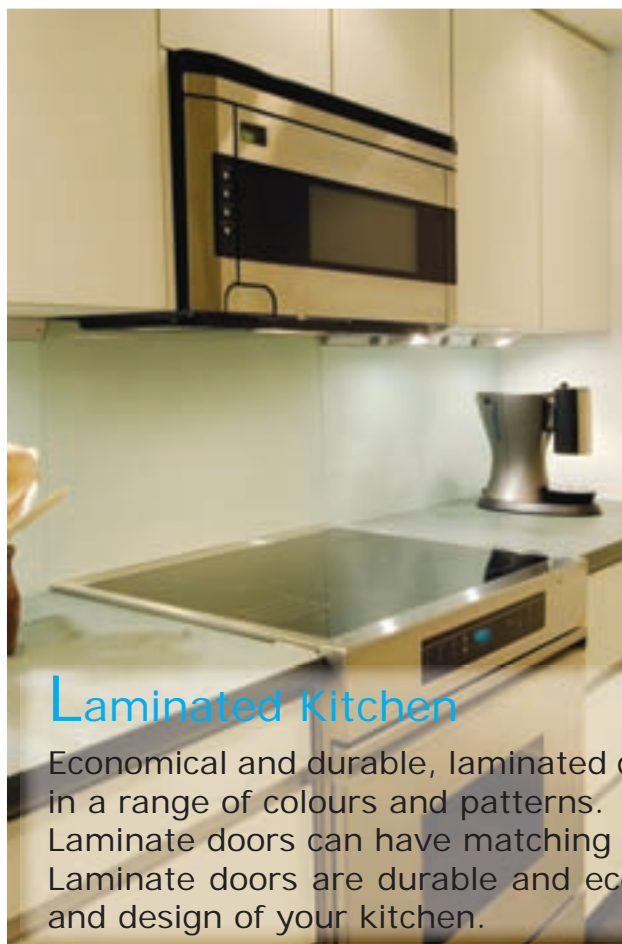

## Timber bench top ▲

Timber bench tops are warm to touch and will age beautifully with time. To protect the surface, the timber bench top is either sealed with polyurethane or wood oil. Polyurethane usually gives a higher gloss finish, is more durable and requires less maintenance than an oiled timber bench top.

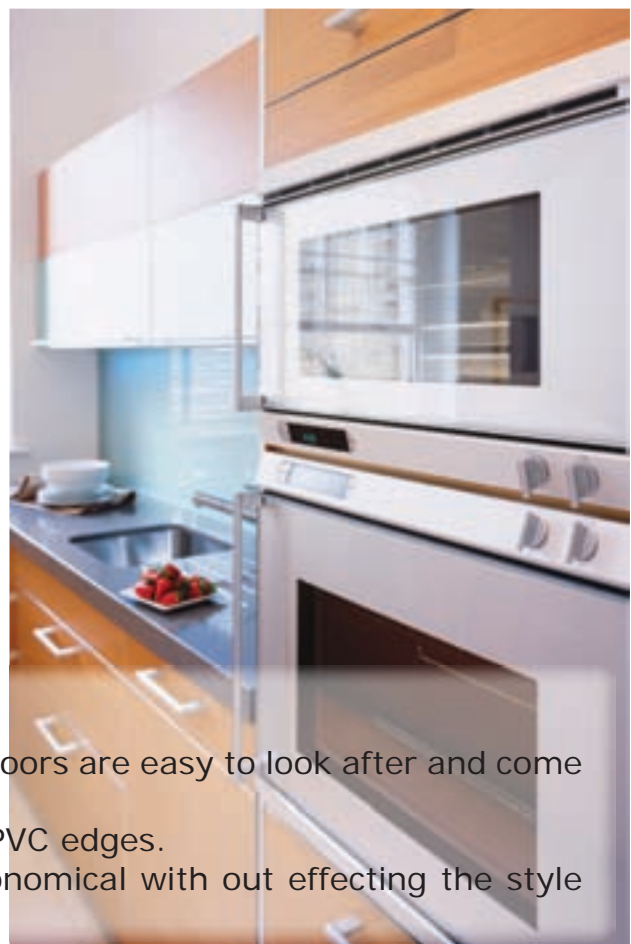

## Handle ▲

Handles complete the final details of your kitchen. Different styles of handles create different visual effects.

## Laminated Kitchen

Economical and durable, laminated doors are easy to look after and come in a range of colours and patterns. Laminate doors can have matching PVC edges. Laminate doors are durable and economical without affecting the style and design of your kitchen.

## ◀ Stone - Quartz Bench Top

A stone composite bench top it is extremely durable, able to withstand high temperatures and much less porous than granite and marble. As a man - made product, uniform colour and pattern can be achieved throughout the whole surface and it is available in a wide range of colours.

## Glass splash back ▶

Glass splash back are becoming very popular because of its simple design and ease to clean. Glass splash backs can be painted in almost any colour to suit your decor.

## ◀ Open Shelf

Open shelves are ideal for frequently used items or displaying your favorite objects.

## Quality Wardrobes & Custom Made Vanities

## Self Closing Drawers and Doors

Whether it's a drawer, pull-out or door all applications operate perfectly with just a light touch they close silently and effortlessly.
